

effect of land carriage on it; it proved a capital wine, very potent, and of full flavour and aroma; in answer to a question, Mr. Kelman stated that none of his wines were fortified with spirit. No. 4 was a red Hermitage of the vintage of 1845, made from the same grape; this wine had been sent to Bathurst, and a small lot sent back to try the effect of carriage; the flavour of this was very different from No. 3, and the wine, perhaps scarcely so palatable and good, but the aroma was pronounced delightful. No. 5 was a red Hermitage of the vintage of 1848, made from the same grape; this was a good palatable wine, but not yet of the full flavour of the other samples; it was much admired. No. 6 was a white wine of the vintage of 1849, made from a mixture of white grapes; this was a very palatable and pleasant wine, not of great strength, being new. Mr. Kelman produced also a sample of white wine, from the vineyard of Mr. Charles Cowper, which was subsequently tasted.

Mr. Hickey, of Osterley, Hunter River, produced three samples. No. 1 was a Hock, of the vintage of 1848, made from a grape called in his vineyard the Madeira. It was of a pleasant flavour, and a good wine, although Mr. Hickey remarked it was quite green. No. 2 was a Burgundy of the vintage of 1849; it was a nice light wine, of very pleasant flavour. No. 3 was a white wine, of the vintage of 1849, made from the Verdelho grape; this was pronounced a very fine wine, very bright for its age, and promising to make a very superior wine. Mr. Hickey also produced a sample of brandy, which was subsequently tasted.

Mr. Carmichael, of Porphyry, William River, produced three samples. No. 1 was a red wine, of the vintage of 1848, made from the black Pineau grape; this wine was of a beautiful colour, though not so deep as some samples; it was a very palatable sound wine, of good body. No. 2 was a white wine, of the vintage of 1848, principally made of Shepherd's Reising grape; this was pronounced a very fine wine, very bright for its age, and promising to make a very superior wine.

On the motion of Mr. Carmichael, the thanks of the association were given to the government for affording means for the introduction of German vinedressers and labourers, to be forwarded to the government through the standing committee.

In the discussion on this motion, five of the members expressed dissatisfaction with the selection of these immigrants, stating that they had not found them, as they expected, acquainted with the culture of the vine.

On the motion of Mr. Carmichael, the thanks of the association were also given to the Surveyor-General, Sir. Thomas Mitchell, for the publication of his "Notes on the Cultivation of the Vine, &c., in Spain."

The meeting then broke up, the members adjourned to lunch, which was had out with great taste in an adjoining room.

The following are the reports handed in by the members:

#### MR. HOLMES'S REPORT.

OKADELA WINE.—A White Wine, of the vintage of 1849, and bottled in October; made from Shepherd's Reising. This sample is the mere juice, without addition or admixture of any sort.

#### MR. KELMAN'S REPORT.

STATION ACCOMMODATION.—Many bottles of wine, the products of Kirkby-Vineyard.

RED HERMITAGE, VINTAGE 1848, made from Red Hermitage Grape alone.

WHITE HERMITAGE, 1847, made from two varieties of White Hermitage Grape.

MADEIRA, 1848, made from Madelha alone.

WHITE, 1849, made from samples of James Busby's collections, planted on trial; 50 plants of each variety; treatment same as white Hermitage, made in statement lodged with the society, 3rd November, 1847.

The culture of the Hermitage Grapes and manufacture of the wines, same as stated in that document.

#### W. D. KELMAN.

7th November, 1849.

#### MR. HICKEY'S REPORT.

The samples of WINE I now exhibit to the association are—

A Hock Wine of 1848.

A BURGUNDY of 1849.

A WHITE WINE from the Verdelho Grape, 1849, and samples of BRANDY from the Gouais, a month old.

The Hock Wine of 1848 is the only one of these samples on which I need offer any explanation. It is made from a grape called, in my vineyard, the Madeira. I have a good opinion of this grape; although the proper name is unknown to me. It is, however, I think, a *Pineau*, from the shape of the bunch and the form of the berry. This wine was pressed rather earlier in the season than it should have been, on account of the excessive rains which then set in, and hence that the bunches of grapes of this variety were not ripe. And I think it may be added, that, as far as my observation has extended, the pressing of the grape at a *too early* time has been a very general fault in this country; and from this cause it is that we discover in most of the colonial wines that thinness of quality, and the absence of that lusciousness and strength which give to foreign wines the power of withstanding the changes of temperature, the exposure to the air, and the disturbance occasioned by the transit from one place to another. I am at least persuaded that the same grape, when it is pressed in the same manner as the British hemisphere produces a very different wine—a difference which I do not think can be placed either to the soil, or to the age of the vine, but to a want, on our side, of perfect maturity of the grape.

Mr. Hickey's sample of Hock Wine, of the vintage of 1848, made from the black Cluster (black Pineau) grape, grown in fine light earth on clay; it was a sound fruity wine, pronounced as very ripe for its age, so that it would compete with older wine; it had every promise of making a first-rate wine as it matured with age. No. 5 was a similar wine, made from the same grape, grown on a sandy soil of considerable depth; this wine was even stronger and of fuller body than No. 4, and was pronounced as likely to make the finer wine of the two, although at present No. 4 was the more perfect wine.

Mr. Lang, of Dunmore, Paterson River, produced three samples. No. 1 was a red wine, of the vintage of 1848, made from the red (or black) Hermitage grape; this was a fair wine, with less colour and flavour than other samples from the same grape. No. 2 was a red wine, of the vintage of 1849, also made from the red Hermitage grape; this wine was of a better colour and flavour than No. 1, and was pronounced to afford every promise of making a wine of fine age. No. 3 was a concentrated red wine, of the vintage of 1849, made from the red Muscat grape; this was a good wine, of quick and rich flavour, and promising great strength. Mr. Lang also produced a sample of brandy, which was subsequently tasted.

Mr. King, of Irrawang, William River, produced three samples. No. 1 was a red wine, of the vintage of 1846, made from the black Pineau grape, mixed with about a third of grey Pineau; this was a capital wine, very palatable, and perfectly sound; it was pronounced to have much improved since it was last shown, in May, 1848. No. 2 was a red wine, of the same vintage, made from the black Pineau grape alone; this was in many respects similar to No. 1, and quite equal to it, some members preferring the flavour of one, and some of the other; both were sound excellent wines. No. 3 was a white wine, of the vintage of 1848, made from Shepherd's grape, known as Shepherd's Reising; this was a beautiful wine, of great strength and full body, the colour of a pale gold, and quite clear; it was altogether one of the most agreeable wines produced at the meeting; in answer to a question Mr. King replied that it was not in the least fortified with spirit, on which several members remarked that it would be nearly impossible to obtain a foreign wine, of equal strength and excellence, that was the pure juice of the grape.

This concluded the tasting of the wines brought by the members.

The sample of Mr. Cowper's wine, produced by Mr. Kelman, having been opened, was found to be a wine of golden colour, and sweet and very agreeable flavour, and it was pronounced to be an excellent wine. Mr. Kelman was not aware of any particulars respecting it.

Mr. Hickey's sample of brandy was then opened, and it proved to be a very good brandy, of great strength. It was

made from the Gouais grape, and was of golden hue.

Mr. Lang's sample of brandy was then opened, and was found to be of a light pink colour, and of good and agreeable flavour. It was made from the black Hamburgh grape.

The production of Mr. Cowper's wine led to a discussion on the advisability of introducing colonial wines made in other districts, which it was generally agreed was not expedient; as it would be impossible for the members, at one sitting, to taste and pass an opinion on the numbers of samples submitted, if this practice were to extend. In the course of the discussion Mr. Hickey stated that he had in his possession samples of five of the best wines of France, which he knew positively to be genuine; these he had thought of proposing to bring to the association for the sake of enabling the members to judge of its progress towards maturity.

Besides these three samples, several others, of which have been brought before former meetings of the association, are now present for the use of the members on the part of the government, to be decided upon in quality to any produced hitherto in the same vineyard.

The particulars relating to soil, aspect, mode of culture and management of the vineyard, and age of the vines—concerned in the production of these samples of wine have already been laid before the association.

It seems allowable to add that the whole of the vintage of Porphyry Point during the last vintage, of which samples were brought forward at the next half-yearly meeting of the association, promise to be decidedly superior in quality to any produced hitherto in the same vineyard.

REPORT.

REPORT OF WINES sent to the association for the 7th November, 1849.

Two bottles of SHERRY, made from the Sherry grape, in February, 1849, grown on sandy soil of considerable depth; a good portion of it is vegetable decomposition and earthy matter from the adjacent low ridge, with a mixture of shells. This description of grape is a most abundant bearer, ripens about a fortnight after the black Cluster, and bears the climate well. It has been twice racked.

Two bottles of GOUDA, made in February, 1849, grown upon a light earthy soil, is a great bearer, stands the climate well, except in very severe weather, at the end of the month, it is apt to mould. This is reported to be an excellent grape for the manufacture of brandy.

One bottle of RIESLING (Shepherd's), made in March, 1849, grown in the same soil as the Sherry, is an excellent bearer, and bears the climate well; it has been twice racked.

One bottle of black CLUSTER, made in February, 1849. No. 1 was made a fortnight earlier than the following:—This is the produce of the hill vineyard, is of a fine light earth on clay; the wine was only about seventy hours of temperature in a cool cellar at a temperature of about 64°; it has been three times racked.

One bottle of black CLUSTER, made in the beginning of March, 1849. The fruit was grown on the same soil as the Sherry above, and treated the same, except the difference in the time of gathering, which, of course, is material, as I have every reason to think the fruit was better ripened.

REPORT.

REPORT OF WINES sent to the association for the 7th November, 1849.

Two bottles of OKADELA WINE, made from Shepherd's Reising. This sample is the mere juice, without addition or admixture of any sort.

THOMS. HOLMES.

## SHIPPING INTELLIGENCE.

### ARRIVAL.

DECEMBER 18.—Narragansett, American ship, 398 tons, Captain Rogers, from the Whale Fishery.

\* \* \* The ship signalled to the northward last evening was supposed to be the Robert Syers, from Newcastle for Adelaide.

### DEPARTURE.

December 18.—Success, steamer, 180 tons, Captain Allen, for Morton Bay.—Passengers—Mr. Mrs., and Miss Orr, Mrs. Ayer, Mrs. Rankin, two Misses Coultis, Miss Robertson, Mr. McCabe, and 15 in the steerage.

### PROTECTED DEPARTURES.

THE DAY.—Willing, for Manila via New Castle; Calde, for Guam; and Albion, American ship, for the Whale Fishery.

### CLEARANCES.

December 18.—John Wesley, Missionary brig, 237 tons, Captain Buck, from Auckland, left for Sydney.—W. Lawry, Mr. and Mrs. Moore, Mr. and Mrs. Miller, and three children, Mr. Knightley, and Mr. John Needham and two sons.

December 18.—Albion, American ship, 326 tons, Captain Hathaway, for the Whale Fishery.

December 18.—Seringapatam, ship, 358 tons, Captain Lovell, for San Francisco, California. Passengers—Dr. Montgomery, Surgeon-Superintendent, Mrs. Courtney, Mr. Foster, Mr. Hewitt, Mr. and Mrs. Wallford, Messrs. Robert and E. Hill, Mr. Gurney, Mr. and Mrs. Farnham, Mr. Cheshire, and Miss McFernott. Daniel O'Connell, Michael Dower and wife, Honora O'Connell, John Nelson, William King, George Spiers, wife and child, Jacob Simmons, wife and child, Timothy Fawcett, wife and two daughters, Hugh Head and wife, Louisa Lickrow, Henry Buckingham, Jeremiah Linnett, Charles and Richard May, Samuel Grace, John Ray, William Wallace, John Stedden, Thomas Hill and wife, George Westbrook, Martin Moore, John Conroy and wife, two sons and two daughters, Alexander Cameron, William Jones, Ann and Mary Moore, Catherine Cummings, Robert Knight, James Garty, wife, and daughter, Joseph Cannon, wife, son, and two daughters, Elizabeth Sharp, Edward Dunnnett, James Oakes, Patrick Wallis and wife, Henry Heckenburgh and wife, Michael White, wife, and four children, Charles Broad and wife, Robert Tornes, John Dark, John White, Richard Kelly, Joseph Walker, John and Alexander Spithill, Henry Brown, James Blyth, Nicholas Williams, Edward Clark, Samuel Parley, William Thompson, John Munro, Hugh McNeil, Robert Lavelle, Charles Horner, Neil McNeil, Patrick McGarvie, Neil Cassidy, Robert Thompson, James Fulham, Henry Davis, Lair Vandeburgh, John Donaldson, Michael Cunane, Edward Castle, Michael Kellar, Robert Buoy, John Connell, wife and child, William Garty, Frederick Stoppel, Mary Horwell, Frederick Horwell, Joseph Bowden and wife, William Forbes, John Day, Ellen Mehan, John Munro, John Seale, John Elphick, Philip Gallien, James Kennedy and wife, Thomas Francis, Mary Patten, Robert Hinchliffe, Anne, Stewarts, John Woolcock, Thomas Harris, John Henderson, John Manning, Joseph Nathaniel and wife, Thomas Robinson, Moses Solomon, John Winter, James Prior, John Chapman and wife, James McKnight, John Cassidy, Adam Jackson, Maria O'Fisher; Mary Burns, John Lackey, Catherine Thompson and two children, James Chambers, Bartholomew, Eder, Brosley, Thomas Johnson, James Walsh, Henry Lopell, James Reid.

### COASTERS INWARDS.

December 18.—Maitland, steamer, 103, from Morpeth, 100 bags wool, 1 bags sheepskins, 45 bags hay, 144 bags wheat, and 18 bags onions; Catherine, 26, Nicholson, from Eden via Balanga Bay, with 26 bundles sheepskins, 9 bags wool, 5 tons bark; William the Fourth, steamer, 54, Sullivan, from Wollongong, with 60 bags potatoes, 1 ton bark, 30 bags butter; Young Billy, 18, Caribis, from the Hawkesbury, with 409 bushels shells; Charles Webb, 21, Andrews, from Kiama, with 3 tons potatoes, 15 casks ale, 58 bags butter, 1 ton bark; Rose, steamer, 17 tons, Captain Harding, from Morpeth, with 164 bags wool, 784 bushels wheat, 83 bags onions, 28 coops poultry, 36 pigs, 4 calves, 11 lambs, and 7 horses.

### COASTERS OUTWARDS.

December 18.—Maitland, steamer, 103, Paine, for Morpeth, with sundries; Vixen, 45, Campbell, for Newcastle, in ballast; Bramble, 34, Miller, for the Richmond, with sundries; Phoenix, steamer, 108, Wiseman, for the Clarence, with sundries; Trial, 20, Thurston, for Port Arker, in ballast; William the Fourth, steamer, 54, Sullivan, from Wollongong, with 164 bags wool, 784 bushels wheat, 83 bags onions, 28 coops poultry, 36 pigs, 4 calves, 11 lambs, and 7 horses.

### IMPORTS.

December 18.—Success, ship, 622 tons, Captain Stuart, for London via Hobart Town.—Part of original cargo from London.—1 case plate, Rev. J. Alwood; 1 case, M. Levy; 1 case, G. Eagle; 1 case, white lead, 1 hogback, 17 casks beer, 40 cases cider, 160 bags salt, 30 tons rock salt; 14 boxes tobacco, 1 case wine, 20 hogheads B.P. rum, 20 hogheads brandy. Order.

### EXPORTS.

December 18.—Seringapatam, ship, 358 tons, Captain Lovell, for California; 2 cases furniture, 34 packages timber, 1 case window sashes, A. Morris; 23 packages timber, J. Holstock; 53 packages timber, J. Bryan; 18 packages timber, C. Beale; 38 packages timber, W. Wright; 1 case furniture, Mrs. Hubbard; 2 packages printed canvas, W. Colahan; 4 packages hardware, 4 cases window frame, E. S. Hill; 108 packages timber, 110 tons wool, 120 packages cotton, A. Hart; 1 case butter, 2 cases apparel, W. and E. Smith; 19 packages timber, W. Sorby; 9000 feet timber, 4 bags onions, 2 bags sugar, 100 tin preserved meats, 50 tin biscuit, 1 set cooking apparatus, 2 half chests tea, 1 cask butter, 1 barrel table, 1 house in frame, J. Fitzpatrick; 45 packages timber, J. Walker; 1 spring cart, 3 casks lime, 1 case nail, 3 boxes oilman's stores, 1 cart wheel, H. Head; 8 cases furniture, 20 packages timber, T. Fawcett; 37 tons coal, 5 cases fruit, 1 case oilman's stores, J. G. Collier; 71 packages timber, 3 cases frame work, J. Cherrington; 93 packages timber, 26 bundles shingles, G. Thornton; 5 packages drapery, C. Newton; 4 cases apparel, C. Hooper; 25 packages timber, F. Elsworth.

December 18.—Albion, American ship, 326 tons, Captain Hathaway, for the Whale Fishery.

December 18.—Success, ship, 358 tons, Captain Lovell, for California; 2 cases furniture, 34 packages timber, 1 case window sashes, A. Morris; 23 packages timber, J. Holstock; 53 packages timber, J. Bryan; 18 packages timber, C. Beale; 38 packages timber, W. Wright; 1 case furniture, Mrs. Hubbard; 2 packages printed canvas, W. Colahan; 4 packages hardware, 4 cases window frame, E. S. Hill; 108 packages timber, 110 tons wool, 120 packages cotton, A. Hart; 1 case butter, 2 cases apparel, W. and E. Smith; 19 packages timber, W. Sorby; 9000 feet timber, 4 bags onions, 2 bags sugar, 100 tin preserved meats, 50 tin biscuit, 1 set cooking apparatus, 2 half chests tea, 1 cask butter, 1 barrel table, 1 house in frame, J. Fitzpatrick; 45 packages timber, J. Walker; 1 spring cart, 3 casks lime, 1 case nail, 3 boxes oilman's stores, 1 cart wheel, H. Head; 8 cases furniture, 20 packages timber, T. Fawcett; 37 tons coal, 5 cases fruit, 1 case oilman's stores, J. G. Collier; 71 packages timber, 3 cases frame work, J. Cherrington; 93 packages timber, 26 bundles shingles, G. Thornton; 5 packages drapery, C. Newton; 4 cases apparel, C. Hooper; 25 packages timber, F. Elsworth.

SHIPS' MAILS.

Mails will close at the Post Office as follows:—

For SAN FRANCISCO, CALIFORNIA.—By the Seringapatam, and Gloucester, this evening, at six.

For LONDON.—By the Ganges, to-morrow evening at six.

The barque Robert Syers left Newcastle for Adelaide, with coal, on the morning of Monday last.

The list of passengers cleared out in the Seringapatam, G. J. and A. L. Simonds should have been Luned.

The Narragansett left Nantucket, on the 16th August, 1846, and since that time has procured 1600 barrels sperm oil; she has called in to rest and recruit. The following vessels are reported by her: September 30th, Planter, Hussey, of New Bedford, with 800 barrels sperm, and 600 barrels cocoanut oil; October 18th, Lelie, of Fairhaven, three months and a half out from Sydney, with 300 barrels Lella Hook, of New Bedford, twelve months out, with 120 barrels of sperm, and the Hector, of New Bedford, seventeen months out, with 100 barrels sperm.

The barque Favourite, hence the 22nd November, arrived at Melbourne on the 10th instant, after a rough passage, in which she carried away her jib-boom.

The Catherine, for Twofold Bay, reported having spoken the brig Dart off that place on Saturday last, at 10 A.M., from Sydney the 14th instant, for Melbourne. The barque Lyle Clark left Twofold Bay on the 13th instant, with cattle, for New Zealand.

now, as the too sudden emancipation of slaves were dangerous. He did not mean to capture the intelligent and independent people of New South Wales with the negroes of St. Domingo, but even they would be better if educated for the revolution. A man born as a universal suffrage would be. To universal suffrage, sooner or later, they must come; and it was that it must succeed best, and therefore they should not use their energies to advance towards it. (Cheers). If they sent him into the Council, he should enter it, not to support any particular interest, not to follow in the steps of any individual leader. It would be his pride to say that he was one of the people—and he thought he had a right to say he was one of the people, because he had raised himself by his own exertions to the present position of being able to ask that suffrage without any adventitious aid whatever. With regard to the transportation question, he was opposed to any return to transportation whatever. Under whatever name, in whatever shape that system might present itself, it would always meet from him his vigorous and unceasing opposition. (Cheers). Why should they be compelled to take the criminals of Great Britain, and to keep them in plenty, whilst there were starving millions of untainted paupers at home who were denied a bed? (Cheers). The next question he came to, was second in importance—it was the question of education. He was an advocate for the extension of education to the greatest possible degree; he was so, because he believed it would be impossible to make this colony a religious people until it was an educated people. Where education was not, religion would seldom come; but education itself tended towards religion, and religion without education was in many cases mere superstition. With regard to the land system, he was wholly opposed to the present, which was despotic, and oppressive, of the imperial government. He would have all the lands of the colony thrown open at a low price and in small quantities, so that the poorer classes might come in, not only to cultivate, but to possess them. (Cheers). The present arbitrary and unjust system of keeping the lands locked up on lease or license through the instrumentality of an impractical price, tended towards a serfdom, the consequence of which it was impossible to foresee. The last point on which he felt bound to touch was the Municipal Government of this City. He did not agree with Mr. Lowe, in the desire to abolish Municipal institutions altogether. He looked with pride and affection to municipal institutions, as the means whereby the freedom of England had been charter and preserved. It was their institutions which had broken down the feudal domination of the Middle Ages, and had first given a political existence to the mass of the people, and it was owing to these institutions that they were now placed in their position that day. But other municipal institutions might be found in these colonies which were liable to abuse. There had been abuses in England before the Reform Bill. The old corporations there were the strongholds of corruption. But instead of the oligarchical commission suggested by Mr. Lowe, which would become the seat of corruption and petty tyranny, his scheme of municipal reform would be to elect the municipal representatives, not from the wards, but from the city at large. He should say no man, though, if they thought fit to ask him any questions, he should be happy to answer them. If he went into the Council, he would be independent, not as a link in the tail of an ostrich, but as a link in the chain of corruption, and he would say unreservedly, he was unfavourable to this colony, paying for emigrants. If England wished to send the refuse of her asylums, her unions, her workhouses, to their shores—let her pay the passage money herself. Another question he had been asked was as to the Chinamen and Coolies, and he would say he was strongly opposed to the introduction of either. These were the principles on which he was prepared to stand, and which, if they returned him, he should always be found ready to defend. (Cheers).

**METEOROLOGICAL REPORT, SOUTH HEAD, FROM 11 A.M. TO 1 P.M. DECEMBER, 1849.**

pany, entirely colonial, will be immediately formed to carry out the work—the captain of the ship James T. Foss had been convicted under the Passenger Act by the Melbourne magistrates of selling three hundred pounds of brandy to a passenger on the voyage from England, and sentenced to pay a fine of £50.—In reply to a memorial of the inhabitants of Port Fairy, the Lord of the Treasury has authorised the Governor to make the place as a port for the entrance and clearance of vessels, and collection of Customs' Duties.—The number of burghes returned by the Collectors at Geelong is: Kardinia Ward, 64; Barwon, 56; Villamatta, 185; Bellarine, 256; total burghes, 561.—The prisoners sentenced to hard labour at the Port Phillip Courts are future to be employed on the road from Melbourne to Sydney.

**METEOROLOGY.**

**GENERAL REMARKS.**

Tuesday, 11.—Calm and beautifully clear for several hours early part. Gentle breezes sprang up by degrees forenoon, and northed, and rose to rather strong breezes all latter part. No clouds throughout.

Wednesday, 12.—Continued fine weather; light north east forenoon—freshened middle part, and blew hard and gusty latter part. No clouds, but latter part a thick wet haze.

Thursday, 13.—Bright sunny weather—no clouds, except some vapoury cirri forenoon. Gentle airs and breezes from northward till middle part; moderate breeze from same quarter F.M.; when atmosphere became very hazy and damp.

Friday, 14.—Morning part calm—sky covered with cirrus clouds; middle part, fresh north east breezes, which increased to a strong coarse wind latter part; hazy, but scarcely any.

Saturday, 15.—Light airs from southward, from daybreak till about eight o'clock, sky being overcast, with cumulo stratus; a few clouds, except some vapoury cirri forenoon. Gentle airs and breezes from northward till middle part; very light airs from eastward. Latter part atmosphere damp, and particularly close and muggy, and remained so; and quite calm throughout the night.

Sunday, 16.—Between eight and nine o'clock pleasant and bright; north east winds, with cumulo stratus; a few clouds, bright; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Monday, 17.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Tuesday, 18.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Wednesday, 19.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Thursday, 20.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Friday, 21.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Saturday, 22.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Sunday, 23.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Monday, 24.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Tuesday, 25.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Wednesday, 26.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Thursday, 27.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Friday, 28.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Saturday, 29.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Sunday, 30.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Monday, 31.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Tuesday, 1.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Wednesday, 2.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon, and the sun shone brightly; banks of clouds hung around, but only partially passed over last quarter, then began to blow strong from south, and so continued through the night—at times very high; sky covered thickly with cumulus and nimbus clouds.

Thursday, 3.—Fresh southerly breezes all day. Clouds broke, and to a great extent passed away forenoon

SUPPLEMENTARY LIST OF CLAIMS  
TO LEASES OF CROWN LAND  
BEYOND THE SETTLED DISTRICTS.

WELLINGTON DISTRICT.

Crown Lands Office, Sydney, 15th December, 1849.—It is hereby notified, for the information of all parties interested, that the undetermined persons have demanded leases of the several runs of Crown Lands, particularised in connexion with their respective names.

2. Parties who object to any of these claims, either wholly or partially, and lodge a notice at the Office, within two months from the present date, specifying the lands to which their objections extend, and the grounds on which their objections are based.

3. It is to be distinctly understood, that the Government does not pledge itself to the issue of a lease in any case, until due enquiry has been made into the validity of the claim, and whether or not it may be necessary to reserve any portion of the land claimed for any of the public purposes contemplated in the Order in Council.

GEORGE BARNEY,

Chief Commissioner of Crown Lands.

No. 113. Betts and Panton (John Panton). Name of run, Galway. Estimated area, 20,000 acres. Estimated grazing capabilities, 1600 sheep.

114. Bray and Palmer. Name of run, Coradegy. Estimated area, 23,040 acres. Estimated grazing capabilities, 750 head of cattle.

115. Boyd J. C. C. (now Benjamin Darley). Name of run, Warrabriah and St. Giles. Estimated area, 1500 or 2000 acres. This run has been transferred, with the sanction of Government, to Mr. Benjamin Darley.

116. Chapman Mrs. A. C. Name of run, Boree. Estimated area, 5120 acres. Estimated grazing capabilities, not stated.

117. Cope Hare. Name of run, Wundabungey, (the Mole). Estimated area, 36,000 acres. Estimated grazing capabilities, 1400 cattle.

118. Cox Hare. Name of run, Navena. Estimated area, 61,000 acres. Estimated grazing capabilities, 1000 cattle.

119. Drift George J. Executors of Name of run, Gneenon. Estimated area, 25,600 acres. Estimated grazing capabilities, 800 cattle.

120. Morris Thomas. Name of run, Carriswooty. Estimated area, 10,200 acres. Estimated grazing capabilities, 500 cattle.

121. Parnell Thomas. Name of run, Wyabray. Estimated area, 32,000 acres. Estimated grazing capabilities, 1500 cattle; 2500 sheep.

122. Wild John, now Patrick Confermer. Name of run, Warrabriah and Dural (Munro). Estimated area, 16,000 acres. Estimated grazing capabilities, 650 cattle. This run has been transferred, with the sanction of Government, to Mr. Patrick Confermer.

LOWE DARLING DISTRICT.

123. Smith Joseph. Name of run, Merriva. Estimated area, 40,000 acres. Estimated grazing capabilities, 1200 head of cattle.

LACHLAN DISTRICT.

No. 136. Marable Horatio. Name of run, Marable Brake Creek. Estimated area, 61,440 acres. Estimated grazing capabilities, 7000 sheep.

127. Blackman and O'Hare. Name of run, James Robert. Name of run, Nannia. Estimated area, 50,720 acres. Estimated grazing capabilities, 1000 cattle.

128. Brown Richard and J. Thompson. Name of run, Meamia. Estimated area, 22,400 acres. Estimated grazing capabilities, 700 cattle.

129. Cartwright John. Name of run, Barmedian. Estimated area, 36,000 acres. Estimated grazing capabilities, 1000 cattle.

130. Cartwright James. Name of run, Kener. Estimated area, 34,000 acres. Estimated grazing capabilities, 1000 cattle.

131. Corcoran Roger. Name of run, Burrawa. Estimated area, 30,000 acres. Estimated grazing capabilities, 610 head of cattle.

132. Dalton John. Name of run, Memaung. Estimated area, 20,000 acres. Estimated grazing capabilities, 500 cattle.

133. Darchy Thomas. Name of run, Craigengill (Cregengill). Estimated area, not stated. Estimated grazing capabilities, 1000 cattle.

134. De Sals William and Leopold Fane. Name of run, Ourna. Estimated area, 25,000 acres. Estimated grazing capabilities, 320 cattle, 4000 sheep.

135. De Sals William and Leopold Fane. Name of run, Argyle. Estimated area, 20,000 acres. Estimated grazing capabilities, 600 cattle.

136. Devlin James. Name of run, Gannain. Estimated area, 32,000 acres. Estimated grazing capabilities, 800 cattle, 7000 sheep.

137. Devin James. Name of run, Culleville. Estimated area, 22,400 acres. Estimated grazing capabilities, 700 cattle, 7000 sheep.

138. Doherty William. Name of run, Ballymoe. Estimated area, 18,000 acres. Estimated grazing capabilities, 600 cattle.

139. Donn John. Name of run, Coontomore. Estimated area, 50,000 acres. Estimated grazing capabilities, 1000 cattle.

140. Du Sals William and Leopold Fane. Name of run, Ourna. Estimated area, 25,000 acres. Estimated grazing capabilities, 320 cattle, 4000 sheep.

141. Gardner William, now Messrs. Stewart and Swankett. Name of run, Rossi Creek, lower end. Estimated area, 19,200 acres. Estimated grazing capabilities, 800 cattle. This station has been transferred, with the sanction of Government, to Messrs. Neil Stewart and Thomas Swankett.

142. Garry James. Name of run, Bogalang. Estimated area, 13,000 acres. Estimated grazing capabilities, 600 cattle.

143. Hanley Thomas. Name of run, Mooy Mooy. Estimated area, 5120 acres. Estimated grazing capabilities, 600 cattle.

144. Hare John. Name of run, Coontomore. Estimated area, 50,000 acres. Estimated grazing capabilities, 900 cattle.

145. Murray Peter. Name of run, Gulgo. Estimated area, 20,000 acres. Estimated grazing capabilities, 600 cattle.

146. Ryan Edward. Name of run, Nubba. Estimated area, 13,000 acres. Estimated grazing capabilities, 600 head of cattle.

147. Ryan Edward. Name of run, Geraldra. Estimated area, 92,100 acres. Estimated grazing capabilities, 640 cattle.

148. Salting S. K. Name of run, Temora. Estimated area, 200,000 acres. Estimated grazing capabilities, 6000 sheep.

149. Stalter Henry. Name of run, Bringerger (Bringerger's). Estimated area, 6 miles river frontage. Estimated grazing capabilities, 800 cattle.

150. Smith Nathaniel. Name of run, Chidowia. Estimated area, 16,000 acres. Estimated grazing capabilities, 600 cattle.

151. Taylor Adam (now H. Beckham). Name of run, The Rocks. Estimated area, 29,000 acres. Estimated grazing capabilities, 6000 sheep.

152. Tait John. Name of run, Oma. Estimated area, 25,000 acres. Estimated grazing capabilities, 1000 cattle.

153. Walsh John. Name of run, Wooro (Wooro). Estimated area, 16,000 acres. Estimated grazing capabilities, 500 cattle.

154. White James. Name of run, Spring Creek. Estimated area, 20,000 acres. Estimated grazing capabilities, 900 cattle.

155. Willmott Joseph. Name of run, Warrieng. Estimated area, 16,000 acres. Estimated grazing capabilities, 400 cattle.

156. White James. Name of run, Coomberrina. Estimated area, 50,000 acres. Estimated grazing capabilities, 1000 cattle.

157. White James. Name of run, Solitary Creek. Estimated area, 20,000 acres. Estimated grazing capabilities, 900 cattle.

158. Willmott Joseph. Name of run, Warrieng. Estimated area, 16,000 acres. Estimated grazing capabilities, 400 cattle.

159. Willmott Joseph. Name of run, Warrieng. Estimated area, 16,000 acres. Estimated grazing capabilities, 400 cattle.

160. Willmott Joseph. Name of run, Warrieng. Estimated area, 16,000 acres. Estimated grazing capabilities, 400 cattle.

## SYDNEY FIRE INSURANCE COMPANY.

Chairman, T. W. Smart, Esq.  
Deputy Chairman, Charles Kemp, Esq.  
Directors.  
Thomas Agate, Esq. | R. M. Robey, Esq.  
Holt, Jun., Esq. | W. H. Scott, Esq.  
Surveyor—James Hume, Esq.  
Secretary—George King, Esq.

The Directors of the Sydney Fire Insurance Company call the attention of the public to the following reduced Scale of their Rates of Premiums:—

Section A.—Slated buildings, £s. to 12s. per cent.  
Section B.—Shingled buildings, £s. to 19s. per cent.

Section C.—Weather-boarded buildings, £s. to 3s. per cent.

FIFTY PER CENT. of the Premium will be returned on the renewal, for twelve months, on all yearly Policies, so that the ACTUAL cost of Insurance will be ONE-HALF only of the above Rates.

Application for Insurance to be made to the Secretary, at the Office of the Company, No. 375, Pitt-street.

GEORGE KING,  
Secretary.

Commissariat Office,  
Sydney, 1st May, 1851

PETERSHAM RACES.  
ENTRANCES.

THE attention of the proprietors of Race Horses and the sporting public generally are respectfully called to the fact that the Entrances for the above Races will take place on

WEDNESDAY, the 19th DECEMBER, at Mr. Michael Farrel's, the Farrier's Arms, George-street, between the hours of 7 and 9 o'clock P.M., when the colours of the riders must be displayed.

BY ORDER OF THE STEWARDS. 10164

SYDNEY ROAD TRUST.

AT 12 o'clock, on Thursday, the 20th December, the Commissioners of the Sydney Road Trust, appointed under the Act of the Governor 18th Victoria, No. 44, will put up to auction, at the Police Office, Windsor, the Lease for one year, commencing the 1st day of January, 1850, of the Tolls and Dues authorized and imposed by the Act of the Governor and Council, 2 Will. IV., No. 12, arising and to be collected at the Toll Gate, "Horse Bridge," Windsor, U.S.A., £220.

The Lessee with two responsible sureties, must enter into a bond and warrant of Attainement, securing regular payment of the rent by equal monthly instalments, before the expiration of seven days after the termination of each month, and containing an engagement binding him to a due performance of the conditions.

MICHAEL MCQUADE,  
Chairman,  
Windsor, December 4, 1850

No. 49-57.

Town Clerk's Office,  
Sydney, 15th December, 1849.

SUPPLY OF WATER TO THE CITY.

NOTICE is hereby given, that in consequence of the continued decrease in the supply of water at Lachlan's Swamp, the Mayor has deemed it advisable to issue orders that on and after Monday next, the 17th instant, the water will be supplied to special contractors with the Corporation only between the hours of six and nine in the morning, daily, and to the city generally, including the public fountains, between the hours of six and nine in the morning, and four and six in the evening, until further order.

By order of the Right Worshipful the Mayor.

JOHN RAE,  
Town Clerk

1851

WINDSOR ROAD TRUST.

THE SECOND AUSTRALIAN BENEFIT INVESTMENT AND BUILDING SOCIETY.

The success that the First Australian Benefit Investment and Building Society, established in this colony has met with, during its brief existence, exceeds the most sanguine expectations of its promoters. It was formed in July, 1848, eighteen months ago, and enrolled Two Hundred and Thirty-five Members, issued Six Hundred Shares, and advanced, during that period to its Shareholders, Four Thousand Five Hundred Pounds, for the purchase, redemption, and construction, of property, amply secured by mortgages to the Society.

The Society having now issued the number of shares limited by its Rules—It is therefore resolved by gentlemen who assisted in the formation of the first Society to establish the second Australian Benefit Investment and Building Society, on the same plan as its predecessor, and to be governed by similar Rules, with any improvements that the experience of the working of the first Society may have suggested.

The object of the second Australian Benefit Investment and Building Society is the extension of the advantages of its system proved in the Mother Country to be most useful, conducive to the happiness, and the moral and social elevation of every community, with any improvements that the experience of the working of the first Society may have suggested.

The Society having now issued the number of shares limited by its Rules—It is therefore resolved by gentlemen who assisted in the formation of the first Society to establish the second Australian Benefit Investment and Building Society, on the same plan as its predecessor, and to be governed by similar Rules, with any improvements that the experience of the working of the first Society may have suggested.

The Society having now issued the number of shares limited by its Rules—It is therefore resolved by gentlemen who assisted in the formation of the first Society to establish the second Australian Benefit Investment and Building Society, on the same plan as its predecessor, and to be governed by similar Rules, with any improvements that the experience of the working of the first Society may have suggested.

MONDAY, JANUARY 7.

**HOMEBUSH ESTATE,**

INCLUDING THE RACE COURSE.

**MR. SAMUEL LYONS**

Is favoured with instructions to submit to

public competition, at his Mart,

ON MONDAY, JANUARY 7,

At 11 o'clock precisely.

**THE LEASE FOR ONE YEAR FROM**

THE 6TH JANUARY, OF THE HOMEBUSH ESTATE.

THIS TRULY VALUABLE HOME-

STEAD consists of open, rich, undulating,

agricultural and pastoral lands, that lay

and situate on the right hand or northern side

of, and immediately adjacent to, the high road

from Sydney to Parramatta.

It is well enclosed throughout, and subdi-

vided by substantial fencing into convenient

and well watered paddocks.

From its reported fertility it would be ad-

vantageously adapted for the depasture of large

herds of cattle or sheep intended for the Sydney

Market.

**THE HOMEBUSH RACECOURSE**

is included in this estate; this alone would pro-

duce a fine and valuable rental, capable

of much augmentation by judicious arrange-

ments on the part of the fortunate lessee.

Terms—Twenty-five per cent. deposit; the

residue by approved bills at three months.

Terms at Sale. 10517
